

# Rhodomax<sup>®</sup>

Unicellular force for more fish production

Aquaculture  
feed  
supplement

Rhodomax<sup>®</sup> is a formulation of prebiotics and probiotic bacteria with red yeast to modulate the intestinal ecology of fishes for enhanced survival and growth

## Vision

TIL Biosciences envisages the need for creation of a stable environment through the usage of ecofriendly healthcare products that are free from antibiotics and steroids, to sustain animal life, food chain and ecology.

# Rhodomax<sup>®</sup>

Unicellular force for more fish production

Aquaculture  
feed  
supplement

**Rhodomax<sup>®</sup> is a formulation of prebiotics and probiotic bacteria with red yeast to modulate the intestinal ecology of fishes for enhanced survival and growth**

## Uses of Rhodomax<sup>®</sup>

- Optimize the intestinal pH
- Eliminates pathogenic bacteria in the intestine
- Enhances feed assimilation and promotes better health
- Increases growth and improves profitability
- Shortens culture period by reaching harvestable size faster

## Dosage

- a. For fish fry (upto 60 days) - 10 gm per kg feed
- b. For grow out (beyond 61 days) - 5 gm per kg feed

## Storage

Store in a cool dry place.  
Keep the pouch tightly closed after every usage.

## Precautions

Do not use in presence of acids or disinfectants or antibiotics.  
**To be top coated with pellet feed and broadcasted or to be mixed along with traditional feed and broadcasted and pegged in feed bags**

## Packing Specification

4 Layers, Micro Polyester, Micro Aluminium, Micro BON with Micro Polythene (natural)

**Rhodomax<sup>®</sup> profit enhancer**

**Rhodomax<sup>®</sup> gut manager**

**Rhodomax<sup>®</sup> feed performance enhancer**

## Composition per 1000 gms

<i>Streptococcus faecalis</i>	T-110 <sup>™</sup>	- 2.0 gm
<i>Bacillus mesentericus</i>	TO -A <sup>™</sup>	- 1.5 gm
<i>Clostridium butyricum</i>	TO -A <sup>™</sup>	- 1.0 gm
Red yeast		- 6 gm
Excipient		- q.s
